

Daily Staff Meeting

Monday, 5 March 1951

It was decided that inasmuch as the Deputy Directors had not had an opportunity to study the draft of an administrative instruction on liaison which had been prepared by the Office of Intelligence Coordination that discussion of that paper would be put over to the Assistant Director's meeting on 12 March.

Mr. Dulles said that he would like to discuss the Psychological Intelligence Warfare paper.

It was reported that Mr. Foley of the National Security Council has recommended that a joint meeting of the ad hoc committee on NSC 86 and the NSC Senior Staff be held to discuss the inducement of defectors. This meeting to take place in the next two weeks.
